The long march against isolation in Italy has reached day 5.

The march began in Milan on 20 May and reached Piacenza on its 5th day.

Activists held a press conference in Piacenza together with Cooperativa Infrangibile and Collettivo Contro Tendenza.

Left media also dedicated news to the initiative.

After the press conference there was a debate organised by Cooperativa Infrangibile and the Collettivo Contro Tendenza to update people on the hunger strike and death fast resistance demanding the end of the isolation against Kurdish People's Leader Abdullah Öcalan and on the recent visit granted to his lawyers.
